WAIVER OF RIGHTS

I have read this statement of my rights and I understand what my rights are. I am willing to make a statement and answer questions. I do not want a lawyer at this time. I understand and know what I am doing. No promises or threats have been made to me and no pressure or coercion of any kind has been used against me.

# An Early Start In Track

Photos by Ed Walker

Above — Members of the West Seattle Road Runners track club sat still long enough for a group photo. Left — A group of girls was bunched as they competed together in a race. Below — Gary Day, coach, gave three girls pointers on starting.

DB Cooper-35185

**R**AIN or shine, three days a week, the West Seattle Road Runners hear the welcome and familiar command: "All right, everybody out on the track!"

The Road Runners is a track club formed last September by a group of West Seattle parents to provide a track and field program to youngsters from 7 to 17 years of age. It is registered with the Amateur Athletic Union, Pacific Northwest Association, and is supervised by Gary Day, head coach.

Day, who promotes track whenever possible, believes the youngsters develop better self confidence and sportsmanship working both as a team and competing as an individual.

The Road Runners competed in the 1969 cross-country season and have numerous meets scheduled this season. Each boy or girl is watched carefully by Day and his assistants for proper conditioning against muscle strains or other injuries. And they also make sure the youngsters have fun.

The striking resemblance of the person whose sketch was published in the Post-Intelligencer on Sunday, November 28, 1971, based on information furnished by the Federal Bureau of Investigation, obligates me to submit the following:

The sketch as shown in the newspaper is almost an identical twin resemblance to a [redacted] whom I knew at the Boeing Company Commercial Aircraft Division, Renton. The physical description also fits. Presumably ID photographs a pertinent data is available at the Boeing Personnel Office. He was surplused approximately [redacted]

## PREFACE

The 1970 version of the USPA Directory is an "expanded publication" and considerably more complete than earlier editions which listed only those drop zones operated by affiliated clubs.

By means of a survey type questionnaire we have been able to list many drop zone facilities for which previously there was little or no information available. As a word of caution; this solicited information has not always been verifiable, and the reader should therefore be prepared for occasional discrepancies between the reported and the actual facilities available at some DZs. Generally, those drop zones which have been visited by a USPA staff member (preceded by a star); and those operated by USPA affiliated clubs should be considered the most reliably reported.

In the event the reader discovers an error in the listed information, or has suggestions for the revision of future editions, please send these comments to Box 109, Monterey, California.

It is hoped that this new format of a State by State breakdown of drop zones, area safety officers, FAA facilities, and the USPA affiliated clubs will provide an easily referenced index of the information most necessary to users of this Directory.

This publication is presented as a service of the United States Parachute Association and is current as of 1 May 1970.

Jerry Rouillard  
Assistant Director  
United States Parachute Association

S T A F F ----- E V A ----- A T I O N

Duket is a 26 year old white man sentenced at Denver, Colorado under sub-section 4208 (a)(2) to seven years for robbing a Denver Savings & Loan Association of \$3,000, pretending he had a pistol. He was serving both federal and state probation at the time of the offense. He used the infant child of a friend as a hostage in escaping officials when first apprehended. Only during the last year has he been engaged in criminal activities, during which time he has received two suspended sentences for serious offenses.

Our inmate comes from a large family of twelve children. He married at age nineteen, shortly after quitting high school prematurely. His marital life was stormy, and after a separation and a reunion he and his wife separated again. Although he was employed fairly steadily, he changed jobs frequently, was restless and unstabilized and appears to have exhibited a high degree of nervous tension and frustration resulting in the twelve month "binge" which culminated with the present offense no. 61 California.

Duket functions on almost a tenth grade level, has high average intelligence and a very fast manipulative dexterity. Tests show he has aptitudes for learning in numerous types of work. However, he very flatly declares he is not interested in pursuing academic subjects or engaging in any trade or vocational training. He declares he has a trade as a grocery and food warehouse worker, but he plans to follow construction work on release. He resents the suggestion that he should improve himself trade-wise while here and, in this frame of mind, he is not presently a candidate for such training. He is interested in the religious instruction program and has enrolled in such a course. There is only a bare possibility that relations between him and his wife will improve to the point of a reconciliation. He is an impetuous, flighty individual for whom prognosis is guarded.

PRESENT WITNESS, Official Version: On August 15, 1961 Duket, knowingly and wilfully by intimidation took from the person and presence of [redacted] the sum of \$3,000 belonging to the Columbia Savings & Loan Association of Denver, Colorado, [redacted] being an employee of that firm. He entered a plea of guilty in U.S. District Court, Denver, Colorado and was sentenced October 27, 1961 to serve seven years. No codefendants are shown. The circumstances are that while still under probation under the jurisdiction of the United States Probation Service of Los Angeles, California and while still under probation to the Milwaukee County Probation Department in Milwaukee, Wisconsin he committed the present offense. The following day, in the evening, while he was living under the name of [redacted] at a motel in Aurora, Colorado with a female companion and her two small children, he was approached by FBI agents in the parking lot of a restaurant. He was carrying one of the small children in his arms and when the agents approached to question him and identified themselves, he made a gesture with his right hand, giving the impression he was drawing a gun from his belt and then placed his right fist into the back of the child under his sport coat. He made a gesture toward the FBI agents making a statement "Don't move. Get back". When advised again of the identity of the agents, using the child and his female companion as a shield, he backed away again, warning "Keep away from me" and kept his right hand under the back of the child. He backed away under these circumstances for a distance of approximately one mile into a darkened area where he separated from them after placing the child on the ground, at which time he fled.

When the judge was pronouncing sentence upon him he interrupted the judge, stating "I don't think I need a tongue lashing with the sentence, Your Honor, I would like to ask the Court to omit verbal punishment and give me my sentence immediately. If I am going to do the time I might as well get it and do it. I don't think I need a verbal tongue lashing with it". On two occasions Duket was reported by Deputy Marshalls to have threatened escape.

INMATE VERSION: The information given to us and to the probation officer by him is to the effect that he owed his brother [redacted] about \$200 and he says his brother was putting pressure on him to get the money or he would be reported to the probation officers. After having arrived in Denver, Colorado August 9, 1961 he was in the downtown area of Denver on August 13th and as he walked past the Columbia Savings & Loan Association he thought it would be an easy place to rob, but decided to wait a few days, walking the streets and frequenting Mary's Bar next door, where he met a woman employee by the name of [redacted] and they became friends. He claims that on the morning of the robbery he went to the bar and talked with this person about his intention of robbing the place and planned to call her after the robbery so they could celebrate. About 11:15 he walked past the Savings & Loan company again but saw some policemen in the area and waited until they left. Then he entered the place, going to the counter, getting a withdrawal slip, writing on it "This is a holdup" but since there were too many people around he decided to wait a while loitering in the lobby and talking to an employee. When the customers thinned out he got in line at the window of what appeared to be the youngest looking cashier and asked her to help him and she stated she would, whereupon he gave her the withdrawal slip and kept his right hand below the counter to give the impression that he had a gun, but he carried no weapon. The cashier handed him several bundles of \$20 bills, later learned to be in the amount of approximately \$3,000. He left the place and took a cab to a place on Colfax avenue, changed clothes, counted his money, and called [redacted] and they met at 1:30 PM, going shopping and attending bars, later picking her children up and registering at a motel on East Colfax avenue as man and wife. Shortly thereafter while coming out of the restaurant the officers approached him and he admits that he put his hand inside

his suit coat as if he had a gun and told them to stay away as he was walking out of it. He states he was still carrying the child and [redacted] and the other child followed b6 per BOP closely behind. He claims he walked about eight blocks that way with the officers following, and then fled. He states he hid out until the next day when at about 6 o'clock he was talking to the military police at the VA Hospital, his identity was discovered and he was arrested.

PERSONAL HISTORY: Duket was born September 16, 1935 at Milwaukee, Wisconsin. His parents are living in Franksville, Wisconsin, his father being a native of that State and his mother a native of Illinois. The father has worked in the fisheries for many years but both parents are in somewhat poor shape at this time and depending on help from others. Our inmate is one of twelve children, the only other one of which has been in trouble being the brother [redacted] who is serving a life sentence at El Reno, Oklahoma for violation of the Drug Act. The other members of the family appear to have substantial jobs and homes. His mother reportedly has no coat. A normal child at birth, got along well with other members of the family, began school when at age six and was an average student. He went to the 8th grade at a parochial school as part time while in school. She claims he went to the West Milwaukee High School where the principle of verifies that he was of average ability but his attendance record was poor and he was truant considerably. After two years of high school, at the insistence of his parents, he withdrew. He displayed no antisocial attitudes or tendencies while in school and he showed an IQ of 99. He remained in the family home until the time of his arrest. On quitting school he worked steadily in some of the fisheries. He would like to comment and give no my sentence immediately. If I am

Although a charge of forgery was placed against him this was dropped and he was placed on probation for one year on a charge of driving the stolen automobile. He was released to the custody of Wisconsin authorities, returned to Milwaukee where he received a suspended five year sentence and placed on probation for the incident that occurred there.
